

## Central tendering module RFQ

### **Rapid, simple tendering and awarding processes**

Efficient RFQ processes with the centralised Liebherr tendering module: simple and smooth from creation of the request right through to award and subsequent documentation of all relevant information.

### **Standardisation**

Uniform structure for RFQs, complete information and documentation

### **Straightforward processing**

Guided process, rapid submission and evaluation of quotes

### **Transparency**

Real-time status overview

### **Clarity**

No need for manual quotes

### **Personal connection**

Direct exchange between Purchasing and supplier, rapid feedback

Less effort. More use.

### **Significant benefits to users from the new request for quotation tool (RFQ)**

#### **All in one place, all in one tool**

Straightforward overview of tenders, including quote history and archives of all RFQs.

#### **Logical and transparent**

All Liebherr companies submit documents in the same format. Everyone has the same information about the request.

#### **Straightforward processing**

The guided tendering process saves time. The system provides administrative support and sends active notifications when there is a new to-do item.
