

LiDAT smartApp Big data analytics

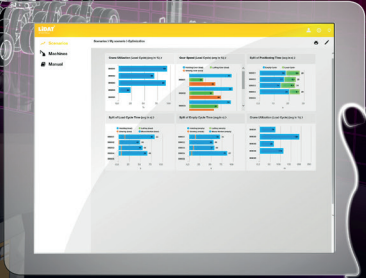

IT solution for analysing and optimising
cargo handling processes

LIEBHERR

Mobile harbour cranes and reachstacker

20% Discount*

Optimise your performance with big data analytics

LiDAT smartApp enables in-depth analysis and understanding of processes. Contact your local service partner to obtain your new package or to upgrade your existing one.

Choose from three packages

- smartApp Basic (prerequisite)
- smartApp Optimisation
- smartApp Maintenance

Eco-friendly

Projectable refuelling and maintenance scheduling minimise downtimes.

Cost-saving

Optimised working processes increase turnover.

Real-time

Monitoring of cargo handling processes in real time.

Expert advice from your local service partner
