

Offshore Crane Technology

# Liebherr CBO Series

**LIEBHERR**

# Liebherr CBO Series

## Applications

General oil & gas industry

## Characteristics

Compact offshore crane with a safe and reliable slewing bearing. Efficient crane structure with rope luffing system and lattice boom design.

## Specifications

Overturning moment: 900tm – 3,600tm  
 Main hoist capacity: up to 100t  
 Boom length: 21 – 63m  
 Slewing range: 360° unlimited

## Customer Benefits

Minimised tail swing radius  
 The operator has an unobstructed view to the load  
 Maintenance-friendly  
 Guaranteed spare parts availability  
 Worldwide customer service station network

## Authorities | Rules | Certificates

Other capacities, authorities, rules, certificates and information upon request.
